ARRANGING THE CARS

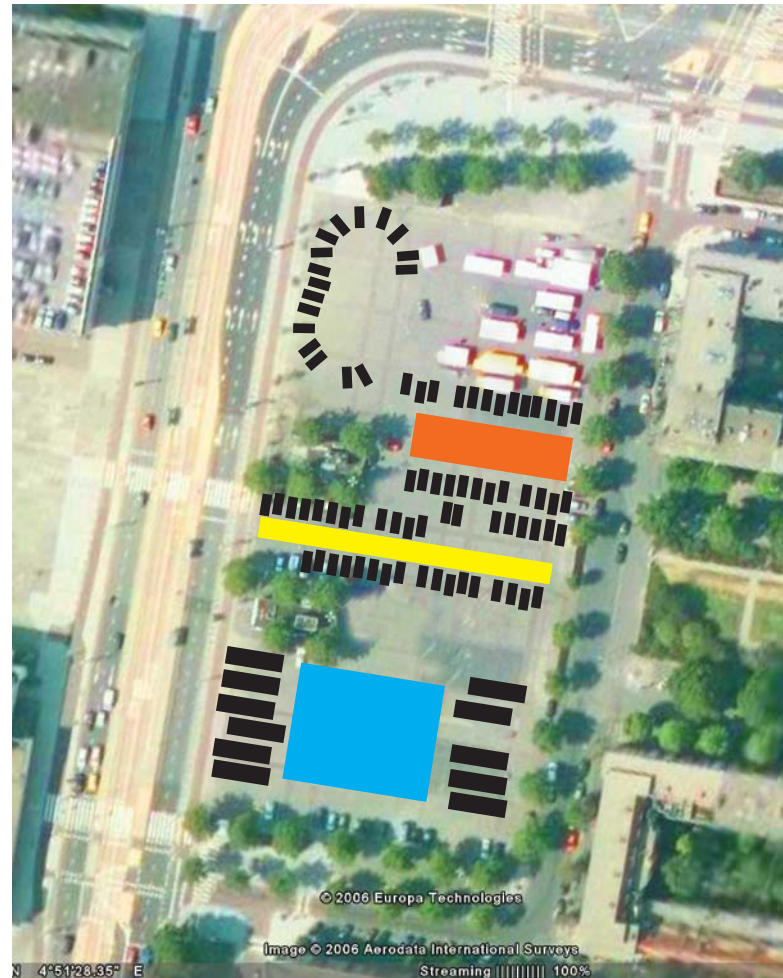

Demarcating space by the parking place layout.

1/ Parking space layout could define a smaller areas with special content / function.

2/ The parking lot could be arranged in the way the new buildings will be nested in the space. In this way the plane would get a more solid image and the new routing of pedestrians and bikes would be established before the actual new development would be implemented.

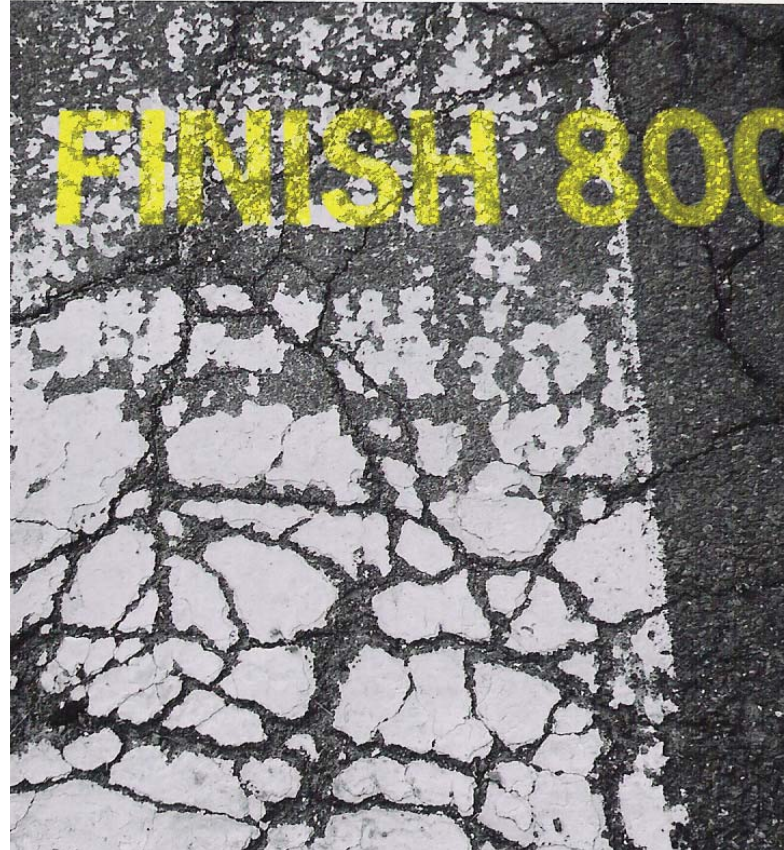

MEGLA; MAINLY DESIGN

Olympisch gebied | Oktober 2006

1928 RECORD PLANE

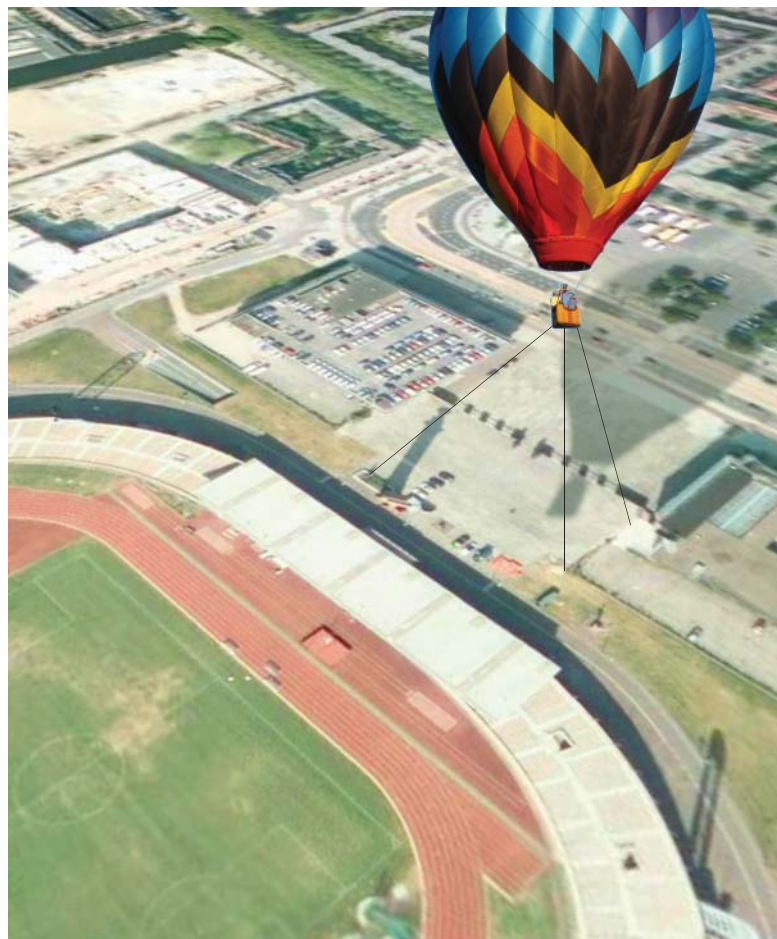

Distances and 1928 record times of some basic athletic disciplines laid out on the plain. The all year neighbourhood competitions culminate in the “neighbourhood Olympics” every four years.

OLYMPIC VIEW

Olympic fire hot air balloon
bungee jump + bella vista platform.

Sponsored by the municipality the balloon would take you up to 70m where you would experience the marvelous view of the stadium and the area from bird's perspective. Balloon would also serve as display surface to announce the upcoming events in the "Olympisch gebied".
